

Jolanta Švedkauskaitė

Who are you / your interests?

I am originally from Lithuania and moved to Luxembourg for work. Shortly after arriving, I settled in Bertrange and quickly came to appreciate the community and its family-friendly environment. I am deeply interested in education and culture, and I am passionate about initiatives that foster creativity and social engagement. Outside of work, I enjoy a variety of hobbies, including crafts, sports, reading, and volunteering. These activities help me stay active, connected, and engaged with the community, while also giving me the energy and perspective to approach challenges with a clear mind. I am particularly motivated by opportunities to contribute positively to the places where I live and work, and to connect with others who share similar values.

Where do you see potential for improvement in Bertrange?

I love Bertrange — it's a wonderful community for families, and I am very happy to live here. At the same time, I see opportunities to strengthen how we live and engage together. While we receive information about local events and communal decisions, there are few chances to share ideas or actively participate in decisions. Bertrange hosts many events, but they are often not focused on building bridges inclusive or cultural exchange. I believe the community has evolved and many new residents bring valuable ideas and energy that could contribute greatly if given the opportunity. By fostering more shared experiences, interaction and collaboration, Bertrange can become an even more connected, inclusive and engaging community.

Why are you a member of CSV and engaged at the local level?

I wanted to give back to the community I live in. I was looking for ways to do that and CSV was the only party that truly listened and gave me the opportunity to get involved. As I got to know the party members better, I realized that I share CSV's values, such as responsibility, community engagement and commitment to the common good. That is why I became a member. Being involved at the local level allows me to contribute directly to the community and support initiatives that make a real and tangible difference in Bertrange.
